It is difficult to find a property so close to the capital and that has as many virtues as this one.

It consists of a plot of 49 hectares where on its highest point stands an old house on two floors with a lot of charm, surrounded by a beautiful mature garden with swimming pool and tennis court. In the vicinity of the house there is an annex for guests and a building with rooms, which is used for staff, as well as a garage. And a few hundred meters from the house we find a totally independent villa and large agricultural building with many possibilities.

From the terraces of the main house we enjoy fantastic views of the horizon that reach as far as Mahn harbour.

The property has a very varied landscape of wooded and flat areas, and has two access points; one is very interesting because it connects with the Mahn harbour in just a few minutes by car. It also has a well and mains electricity. The property is being sold with an approved licence for refurbishment.
